- **SSC** (2019) - Serampore Malina Lahiri Boys' Academy (H.S.) , West Bengal

PROJECTS

Title : Office Management System
Duration : 5 months
Description : The Office Management System is a PHP MySQL project designed to streamline administrative tasks within an office environment. It serves as a centralized platform for managing various office functions, including employee information, task assignments, project tracking, attendance management and payroll management.

Title : CrisisConnect : Emergency Service Provider
Duration : 5 months
Description : CrisisConnect is a web-based emergency service platform designed to streamline and enhance the process of requesting and providing critical assistance during emergencies. Built using the MERN stack (MongoDB, Express.js, React.js, Node.js), the application offers a user-friendly interface where individuals can register, log in, and access a dashboard featuring four types of emergency support: fire, police, hospital, and medical.

Upon selecting an emergency service, users can choose to request help at their current location or their home location. The request is then logged and displayed on the admin panel, where administrators coordinate with the nearest emergency service providers to dispatch assistance promptly. Users receive real-time notifications and confirmation emails to keep them informed about the status of their request.

CrisisConnect aims to improve the efficiency and effectiveness of emergency responses by leveraging modern web technologies, ensuring timely support for individuals in distress while fostering better coordination among emergency services.
